

## **Washington County**

## SW 185th Avenue

| Enhanced Transit Corridor (ETC) including enhanced stations and station           | \$40-50M |
|---|----------|
| access, targeted transit priority (BAT) lanes, Willow Creek Transit Center access |          |
| and traffic signal optimization.  |          |
| Light Rail (MAX) Overcrossing of 185th. Improves traffic reliability along 185th  | \$55-65M |
| including bus reliability.  |          |
| Mid-block crossings at Sandra, Cascade, and Pheasant and other locations.         | \$2-3M   |
| Intersection redesigns at Alexander, Blanton, including pedestrian crossings,     | \$10-16M |
| sidewalk and bike lane improvements, and intersection realignment.                |          |
| Kinnaman to Farmington: reconstruct to urban standard as 3-5 lanes with           | \$20-25M |
| bicycle lanes and sidewalks.  |          |

## Burnside Street (from Sunset TC)

| station enhancements, articulated buses, signal priority, and periodic transit (BAT) lanes.  (higher number could leverage \$87.5M  |  |                 |
|---|--|-----------------|
| eastbound buffered bicycle lanes, westbound standard bicycle lanes, sidewalks and lighting.  95th Ave pedestrian/bicycle trail to Barnes Road and Sunset Transit Center (access to transit).  Enhanced transit corridor (ETC) elements for Line 20 potentially including station enhancements, articulated buses, signal priority, and periodic transit (higher number could leverage \$87.5M federal match)  Portland Central City Enhanced transit investments.  Opportunity for West Burnside enhancements between 2nd Ave and Park Ave.  Funding for East Burnside to 12th Ave.  MultCo: Earthquake Ready Burnside Bridge Project  Opportunity to create a seismically resilient multimodal bridge along a critical east-west regional lifeline route  Currently in the Environmental Review Phase. Design phase funding identified. Seeking portion of construction funding.  Portland: Safety investments and pedestrian crossings.  \$10-20M | street with eastbound buffered bicycle lanes, westbound standard bike lanes,       | \$25-30M        |
